FOLDING BAMBOO CHOPPING BOARD

We've adapted our original, award-winning Chop2Pot™ chopping board for those who prefer the look and benefits of bamboo. As bamboo is denser and less porous than wood, it resists water and knife scarring better, making it a perfect surface for chopping your fruit, veg and meat on.

The unique folding design features a silicone hinge in the centre of the board and non-slip feet to keep it securely in place as you chop. Once you've chopped your ingredients, simply fold the board to pour into your pot or pan!

This board is not dishwasher safe, please wash by hand and wipe dry- do not soak.
