**EASY-ACTION WINDING CORKSCREW**

The easy-to-use design features twin foil cutters, non-stick coated thread that glides easily onto all types of cork and its self-aligning design ensures perfect positioning every time. Making removing corks from bottles effortless.

Simply push the corkscrew down onto the neck of the bottle, grip the sides and wind the handle clockwise to drive the screw into the cork. Continue winding and the cork is removed seamlessly, without the need to lever or pull it out like a conventional corkscrew.

PUSH DOWN ONTO BOTTLE

SQUEEZE ARMS AND WIND HANDLES

WIND IN REVERSE TO RELEASE CORK
